

When we get through this period of misery, we still have the thing that wipes us out as a society, leads us to decades of misery. The current calculation basically says, in 29 years, my new math says we get to be about 210 percent of debt-to-GDP. That is publicly held debt.

Remember, last year, we were borrowing functionally \$47,000 a second. I know most of this place just cares about surviving the next election. I mean, look at the legislation that keeps being offered. But is there at all a moral responsibility here to understand this destroys your kids, this destroys your grandkids, this destroys the future generations? We will be handing the next couple of generations a much poorer—they will live poorer—country than we inherited.

This is \$112 trillion of publicly borrowed money adjusted for inflation. This isn't my math; this is CBO's math from a year ago. This is before the crazy spending of last year.

Mr. Speaker, when I came to the mike, I shared with you I was a bit cranky, and I had had a lot of coffee. I don't believe Democrats are evil. Misguided, yes, but I believe many of them are my friends. They have good hearts. But you have to stop the policies that hurt people. You have to stop hurting people, and you have to stop making the Nation poorer.

There are a number of us whose ideas, that aren't even traditionally Republican, we could embrace. I mean, curing diabetes is one of them. Is that Republican or Democrat? It is neither. It is just moral.

Maybe, once in a while, let a Republican have an amendment or an open debate because there is a path. There is a path where we can make our future better, but you have to stop the blood-letting.

Mr. Speaker, I am going to go back and have some decaf.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Members are reminded to direct their remarks to the Chair.

AMERICA IN CRISIS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 4, 2021, the Chair recognizes the gentlewoman from Georgia (Mrs. GREENE) for 30 minutes.

Mrs. GREENE of Georgia. Mr. Speaker, I rise tonight to talk about America in crisis, and it is crisis after crisis.

The American people can hardly get their feet underneath them. You see, after riots, the next thing that came was COVID, and then elections, and now more COVID mandates, masks, more COVID, and now, potentially, the thoughts of war.

But there is a lot more happening on top of that. We are in a real crisis in America, especially with American energy. You see, right now, the number one call I receive in my office from my

constituents—and it is mainly the only thing they are calling about—is the price of gas.

The price of gas, the average right now, is \$4.32. People calling my office are saying they can hardly afford to fill up their tank. They are not sure if they are going to be able to fill up their tank to take their kids to school, to be able to go to the grocery store and afford the high cost of food now. They are just not sure where this is going.

They also call and say they don't understand why the Biden administration, why Congress, why our Federal Government isn't doing anything to help Americans be able to pay for gas at the pump.

You see, it wasn't too long ago that we were energy independent in America. There was a different mindset in charge. There was a mindset of putting our country first, our tax dollars first, putting Americans first, and considering ramping up energy in America and growing energy in America instead of declining and killing energy in America.

But now, that seems to be the way of our government. It is hurting Americans, and people cannot afford it. This should not be a political issue. This is an issue for every single person that drives a car and truck.

Now, it seems to be the goal is to make every single American drive an electric vehicle. If that is the goal, there is a big problem here. It is not up to the government, the United States Government, to force people to buy an electric vehicle. It should be up to the United States Government to do things like take care of our national security, secure our border, help oil companies produce more oil to increase energy independence, increase natural gas production, continue to build more nuclear, to grow energy in America. But that doesn't seem to be the way.

No, we are looking at the third straight week in a row of over \$100 a barrel of oil. Currently, it is at \$112.12. This is a disaster.

In March 2020, President Trump directed the Department of Energy to purchase 30 million barrels to begin filling our strategic reserves. But President Biden announced in his State of the Union that he would once again tap the strategic reserves and release 30 million barrels of oil in a desperate attempt to reduce gas prices here at home.

Now, Biden is considering releasing even more. This follows an SPR release of 50 million barrels of oil in November 2021, which did nothing to prevent the spike in gas prices. And, no, it is not what is happening in Ukraine. This was happening before Ukraine.

The SPR is supposed to be used for national security emergencies and major weather events. These are our emergency oil supplies. But that doesn't seem to be the case here. It seems to be the continuing plan to reduce America into being dependent on foreign countries.

You see, the biggest problem started on day one when the Keystone XL pipeline was completely stopped. That would have supplied 830,000 barrels of oil from Canada to U.S. refineries. That would have helped Americans once that was finished. But, no, that was an executive order by President Biden to suspend it, to suspend all oil and gas leasing on Federal lands and waters. That was a continued America last energy plan.

While a Federal judge ruled the leasing bans to be illegal, the Biden administration has issued zero new leases on Federal lands. That is not helping Americans.

Another issue that happened in May 2021, President Biden removed sanctions against Nord Stream 2, which were previously put in place by former President Trump. In February 2022, President Biden reversed course and reimposed the Trump sanctions, noting the overwhelming incentive to move away from Russian gas.

President Biden's far-left socialist agenda, Build Back Better, was an effort to cripple domestic energy by increasing oil and gas production payments to 20 percent, increasing bonding and surety requirements to more than 15 times their current levels, imposing a new severance tax, and establishing new annual fees of \$10,000 per mile for offshore pipelines.

President Biden's fiscal year 2022 budget request explicitly opposed funding the construction or maintenance of projects that would lower the cost of gas, diesel, or energy derived from fossil fuels.

Biden's Department of Energy has slow-walked liquefied natural gas exports that could reduce Europe's dependence on Russia.

These are all the things that have led to the increase of the price of gas at the pump that is hurting my constituents in my district in northwest Georgia. This is hurting Americans. None of these things have helped us.

Now, here is what we have to consider. We also have bigger problems. The Consumer Price Index, which is a key inflation index, hit a 40-year high in February. The CPI increased to 7.9 percent over the past 12 months, and this is inflation that happened before Russia invaded Ukraine. You can't blame Putin for that one. This is all happening right here at home.

Let's talk about inflation and how it is hurting Americans. Here is one thing that everyone can understand. Used cars and trucks are up 41.2 percent; 41.2 percent is unbelievable.

If you have been on vacation lately, you know that if you try to rent a car or truck, they are very hard to find.

Gasoline is up 38 percent.

Lodging away from home, going to a hotel while you are trying to go on vacation, or, say, people that are traveling for business, that is up 25.1 percent.

Now, if you are cooking at home and trying to save money making a meal

for your family, bacon is up 18.8 percent. Peanut butter, for those great peanut butter and jelly sandwiches that moms and dads make for kids' lunches, is up 15.6 percent. Pork is up 14 percent.

Clothing is up. Dresses are up 13.5 percent.

Airline fees are up 12.7 percent.

The cost of a new vehicle is up 12.4 percent. If you are in the market for a truck, well, guess what? You will have a hard time getting one, or an SUV, because many of them are sitting on the lots, still waiting for microchips.

Eggs are up 11.4 percent. Coffee is up 10.5 percent. Baby food is up 8.4 percent.

Transportation services are up 6.6 percent.

Beer is up. You know there is a problem when the cost of beer is up 5.3 percent.

Now, 2021 went down as the worst year for inflation since 1981, but it looks to be 2022 is going to be worse. The problem for Americans is, it is not that anyone is increasing their wages. They are actually being hurt by all of these economic forces that are hitting American families hard.

Don't forget, the same people that were big Democrat voters, which are those people suffering with big student loans, these are people that are working their jobs, trying to pay their student loans, trying to afford their car payments. They can't afford gas at the pump, and no one seems to be helping them.

Inflation is a tax on everyone, and no one is exempt. That is what people are complaining about here in America, not what the people that run around Washington think. It is a lot different when you talk to people on the ground.

Now, another thing people are very upset about is what is happening at our border. We have a true border crisis, and it is time to start caring about it.

Listen, it is an insult to all border communities because President Biden visited Texas but continued to refuse to visit the southern border or other surrounding communities that his failed open border policies have endangered.

The real issue is, while President Biden is more interested in working with Iran, Russia, and China to go re-enter an Iran nuclear deal, he doesn't seem to care about what is happening at the border.

According to Customs and Border Patrol data, there were 153,941 migrant encounters at our southern border in January. That is a 96 percent increase from the previous year. This was the second-worst January on record. Of the 153,941 illegal immigrants encountered at the border, the Biden administration released 62,573 of them into the United States.

This new data comes at a time when ICE deportations are down 70 percent from 2020, the fewest number of deportations in 5 years. This equates to an average of just 100 deportations a day,

even as Border Patrol agents encountered up to 7,000 illegal immigrants daily.

But only 100 get deported? Why? You have to ask why.

Since Biden took office, over 2 million illegal immigrants have been apprehended at our southern border. Biden has still not visited the border even during this historic crisis. It doesn't seem that President Biden even cares.

Border officials have estimated that nearly 400,000 illegal immigrants have escaped into the United States without being caught under President Biden. But we don't even know if that is the right number. That is just an estimate.

Out of 104,171 migrants issued notices to report by ICE between the end of March and the end of August 2021, 47,705 failed to report. They just don't bother showing up.

□ 1830

There were 10,763 arrests of migrants with criminal convictions in fiscal year 2021; that is up 2,438 from fiscal year 2020, and that is up 4,269 in fiscal year 2019.

But here is the real issue. Fentanyl is flowing across our borders. Seizures of fentanyl increased by 134 percent in fiscal year 2021 under President Biden's watch.

Now, fentanyl is the number one reported reason of cause of death for young people ages 18 to 45. What are we doing in our country when this deadly drug is flowing across our wide-open border that our President doesn't even seem to care about, that no one is interested in closing the border or securing the border?

How are we failing Americans and failing young people, where fentanyl that comes over from China is so easily flowing across the border? This is a disaster. It is a complete disaster.

Now, what I find absolutely mind-boggling is how here in Congress we passed a \$1.5 trillion omnibus bill last week that was 2,741 pages, and we didn't even have 24 hours to read it. That is a complete failure to the American people and the American tax dollars who are the ones paying the \$1.5 trillion for the omnibus bill.

There is not a company or a small business in the private sector that operates this way. But our Federal Government is reckless and out of control, and the American people are feeling the consequences. You just have to ask the question: Why? Why does Congress work this way? It is just not working. It is not working for the American people.

Now, this week we were addressed by President Zelenskyy and the crisis that the Ukrainian people are going through. It was heart-breaking to hear the stories he told, the video that he showed, the tragedies that we are hearing about over and over, but we also aren't given enough information.

Last week, Congress approved \$13.6 billion to go to Ukraine. Now, this is

after years and years of sending billions of dollars in aid to Ukraine and funding all kinds of things in Ukraine. Who does Congress work for? I think that is the greatest question. What is the purpose of this institution where we take American taxpayers' dollars and send it to countries all over the world? We send money to all kinds of foreign countries and fund all kinds of things.

Now, one of the most fascinating stories that went on and on across the internet and news companies—you heard it on TV and saw it on social media everywhere—was this big discussion about biolabs. Now, I thought it was pretty fascinating, a lot of people were interested in it, but we were all told no, no, no, you can't talk about biolabs because that is fake news, that the United States doesn't fund biolabs in Ukraine—the United States wouldn't do that.

Well, come to find out, in fact, it is true. The same news companies and the same sources are telling us that it is not true that the United States funds biolabs—you could also look up their older news stories from years ago where, in fact, they were talking about the United States funding biolabs. So the misinformation going on is real and the American people deserve to know what they are paying for.

This comes on the heels of after 2 years—and this is just so tragic—that not only the United States but the entire world has been dealing with COVID-19. Now, it has been a true tragedy what has happened with COVID. Over 968,000 Americans have died—that is according to The New York Times today—over 6 million people have died worldwide. That is according to The New York Times today.

For the last 2 years, Americans have dealt with the consequences of U.S. funding these labs and funding the gain of function research. Now, it is something that we really have to recognize and we have to talk about, but our government did fund the gain of function research. We know that to be true through EcoHealth Alliance.

The gain of function research is what allowed the virus that is transmitted between bats to be turned into a virus—like a Dr. Frankenstein virus—that can be transmitted between humans. We have to ask the question: Why would the United States Government engage in funding something as horrific as that? How is that science? It is a good thing to ask these questions.

Now, here is what else is interesting. Just today Dr. Fauci, who happened to be the one to help fund the gain of function research, decided to come out and say that mask mandates should be brought back. This is at a time where we are finally getting rid of mask mandates. He is also recommending a fourth COVID vaccine shot.

Now, I don't know about you guys but many of us were vaccinated as kids against polio, we had our MMR, and I have never seen the CDC coming out,

saying, oh, you got to get your second polio shot, you got to get your third, you got to get your fourth, and this may continue to keep going.

I think the question we all should ask is: When does it stop and when are enough vaccines enough? We don't have that question because now Congress is discussing and debating a future COVID bill, an emergency bill. This is a future COVID bill to fund future variants and future vaccines. And not only future vaccines for the United States, but future vaccines for the entire world because somehow the United States is responsible for vaccinating the world against future COVID variants that we haven't even seen yet.

And somehow Congress thinks that we should do emergency funding, possibly up to \$22 billion to study and prepare for future COVID variants and future COVID vaccines, and as many things as we need to do, but yet we aren't seeing them. How is that necessary to have emergency funding at \$22 billion to fund something that we don't know is going to happen and shouldn't happen and would never have happened without the U.S.-funded gain of function research to the Wuhan lab? I think these are questions worth asking.

Now, another thing I would like to point out is President Trump had asked Congress for \$22 billion to build a wall down at the southern border. Imagine if Congress had found it important or recognized the important need to go ahead and fund \$22 billion back in 2017 or 2018, that wall would have been built.

I can tell you right now, I don't think we would be seeing and hearing about the numbers of illegal immigrants coming across our border and deadly fentanyl coming across like this. Imagine if Congress had taken seriously border security under President Trump and funded that \$22 billion then that now Congress is considering funding for future COVID that we don't even have yet. These are good questions to ask.

These are the kind of questions that the regular American people ask, not the ones that live here in the Washington D.C. bubble; they are very disconnected here with real America.

Now, this is the thing that I just find so amazing. As we consider funding future COVID and future COVID vaccines, we have people at home that are sick and tired of their children being masked in school. They do not want to be forced to take a vaccine that they feel they should have the ability to decide about their own health, if they want to take it or not.

We are still trying to get back on track with not having to wear masks on airplanes, not having to send our kids to school to be masked, and not have to be shut down anymore. We have not recovered yet from the COVID crisis of the past 2 years. But, no, we have to consider more future COVID variants and future vaccines, and vaccinating the world against future COVID everything.

It never seems to stop, it is crisis after crisis. Unfortunately, a U.S.-funded gain of function research in a U.S.-funded lab in China gave birth to COVID-19 that has hurt the entire world.

Here is what we need to discuss. We need to ask the question: What is happening in these U.S.-funded labs? And we need to be willing to talk about it. We also need to ask the questions about the VAERS statistics. What if there are vaccine injuries? What if there are vaccine deaths?

It is okay to ask these questions because these may have affected people's lives, and that is important to do, right? But when we are talking about biolabs, we do know for a fact that the U.S. has funded the contracts not only to take over the labs, reconstruct them, but also build them. This goes through grants through private companies at millions and millions of dollars.

Now, what if these biolabs are handling very dangerous pathogens that may lead to the deaths in people in the areas. There are reports of possibly deadly pathogens escaping these biolabs in places like Ukraine, Georgia, Kazakhstan, that is responsible for killing people. What if that is true? I think these are questions that we should ask because no American citizen wants to be held morally and ethically responsible, and the U.S. Government should not be funding something that is killing people in a country that is not even our own, let alone here at home.

These are worthy questions. For that reason, because it has become such an issue and because it upsets so many people that I talk to constantly, I have introduced a bill to stop taxpayer funding for bioweapons and eliminate these programs from the Federal Government because no government should be creating bioweapons. That is evil and wrong.

Now, the name of this bill is the Stopping the Spread of Taxpayer-Funded Bioweapons Act. What if strange outbreaks surrounding U.S.-funded biolabs are the result of these labs and the work that is taking place in them? What if these labs are creating viruses just like COVID-19?

This is something that all of us should be against. That is why it would be so important to pass this bill and make sure that our United States Government is never funding anything deadly and never funding something like COVID-19. These are consequences that we cannot take and we should not handle and we should not ever consider.

Now, as we go further, we have a lot of issues to consider. We have an economy that is definitely in trouble. We have hyperinflation and gas prices out of control. We are looking at what is going to happen in Ukraine with Russia and what is going to happen in the world with all these sanctions. There are some issues to consider.

Now, the value of our dollar is extremely important. The value of our

dollar affects our entire economy. If the value of our dollar were to go down suddenly, that would affect all Americans. Right now we are in a critical time where Saudi Arabia is discussing with China—talking to them about possibly switching from the petrodollar to trading with China's currency.

We have sanctioned Russia. And as Russia is looking at taking Ukraine and they are invading Ukraine and killing people in Ukraine, Russia has turned to China. Just recently Russia made a \$117.5 billion deal with President Xi of China. That deal is to sell oil and gas to China.

Now with sanctions tightening on Putin and Russia, will we see Russia turn to China and switch to China's currency? What if Russia and Saudi Arabia switch from the dollar to China's currency? Then think further, what happens if countries like Venezuela or Cuba or any other country turns to China's currency?

If we go into a situation where we have two world competing currencies, the dollar is going to be hit very hard, and that is going to hurt America's economy, that is going to hurt every single one of us. If we think we are suffering under high inflation right now and high gas prices, well, we haven't seen anything yet. This is a dangerous situation and these are the things that I don't hear being talked about here in Congress very much.

These are not the things that our leaders are considering when they are beating the drums of war—wanting to go in and go to war with nuclear Russia. These are not the things that are being considered for our children and for our country's future, but these are the most important things they should be considering. Unfortunately, they are not.

□ 1845

Now, what we all should be doing is encouraging President Zelenskyy and President Putin to get to the negotiating table and stop people from being killed. That should be the most important thing we care about.

Sanctions are being put in place, and we should be considering what are going to be the real human costs when we are stopping countries from trading very important products like grain, fertilizer, and energy because it may be a punishment to those governments, but the real punishment is to the people in other countries and our own.

So my questions for our Congress—our United States Congress—are: Which country do we honestly serve? Which country do we honestly care about? And which people do we care about?

Because this body right here is funded by the American people and their hard-earned tax dollars, and the American people and their hard-earned tax dollars are the people we should consider first.

It is the United States of America we should consider first. It is the United

States currency, the dollar, we should consider first, and it is the United States economy we should consider first, our small businesses, our big businesses, and our border that should matter.

Now, Mr. Speaker, tonight, I will finish with this: I think it is important for the United States Congress to talk more, to slow down in our decisions, to read our bills—every single one of us has the time to read them—and for every single one of us to vote in person—not by proxy—and not simply by saying “yea” or “nay”.

So, Mr. Speaker, I am grateful for this time, and I yield back the balance of my time.

PUBLICATION OF BUDGETARY MATERIAL

REVISION TO THE AGGREGATES, ALLOCATIONS, AND OTHER BUDGETARY LEVELS FOR FISCAL YEAR 2022

COMMITTEE ON THE BUDGET,
HOUSE OF REPRESENTATIVES,
Washington, DC.

MADAM SPEAKER: Pursuant to the Congressional Budget Act of 1974 (CBA) and the Concurrent Resolution on the Budget for Fiscal Year 2022 (S. Con. Res. 14 (117th Congress)), I hereby submit for printing in the Congressional Record a revision to the aggregates and allocations set forth in the Statement of Aggregates, Allocations, and Other Budgetary Levels for Fiscal Year 2022 as published in the Congressional Record on October 27, 2021.

In accordance with the CBA and S. Con. Res. 14, this revision makes an adjustment to previous amounts for program integrity for the Internal Revenue Service. Those amounts are contained in the Consolidated Appropriations Act, 2022 (Public Law 117-103). These adjustments are allowable under section 4005(b) and section 4007 of S. Con. Res. 14 (117th).

Accordingly, I am revising the aggregate spending level for fiscal year 2022 and the allocation for the House Committee on Appropriations for fiscal year 2022. For purposes of enforcing titles III and IV of the CBA and other budgetary enforcement provisions, the revised aggregates and allocation are to be considered as aggregates and allocations included in the budget resolution, pursuant to the Statement published in the Congressional Record on October 27, 2021.

Questions may be directed to Jennifer Wheelock or Kellie Larkin of the Budget Committee staff.

Sincerely,

JOHN YARMUTH,
Chairman.

TABLE 1.—BUDGET AGGREGATE TOTALS
(On-budget amounts in millions of dollars)

	2022	2022–2031
Current Aggregates:		
Budget Authority	4,168,314	n.a.
Outlays Total	4,505,637	n.a.
Revenues	3,401,380	38,957,374
Revision for the Consolidated Appropriations Act, 2022 (P.L. 117–103):		
Budget Authority	–417	n.a.
Outlays Total	–366	n.a.

ENROLLED BILL SIGNED

Cheryl L. Johnson, Clerk of the House, reported and found truly enrolled a bill of the House of the following title, which was thereupon signed by the Speaker.

H.R. 3076. An act to provide stability to and enhance the services of the United States Postal Service, and for other purposes.

ADJOURNMENT

The SPEAKER pro tempore. Pursuant to section 11(b) of House Resolution 188, the House stands adjourned until 9 a.m. tomorrow.

Thereupon (at 6 o'clock and 46 minutes p.m.), under its previous order, the House adjourned until tomorrow, Friday, March 18, 2022, at 9 a.m.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XIV, executive communications were taken from the Speaker's table and referred as follows:

EC-3654. A letter from the Senior Bureau Official, Bureau of Legislative Affairs, Department of State, transmitting notification of the emergency third party transfer authorization from the Netherlands to Ukraine; to the Committee on Foreign Affairs.

EC-3655. A letter from the Chairman, Federal Maritime Commission, transmitting the Commission's 2021 21st Century Integrated Digital Experience Act Report; to the Committee on Oversight and Reform.

EC-3656. A letter from the Director, Office of Acquisition Policy, Office of Government-wide Policy, General Services Administration, transmitting the Administration's summary presentation of a final rule — Federal Acquisition Regulation; Federal Acquisition Circular 2022-05; Introduction [Docket No.: FAR-2022-0051, Sequence No.: 2] received March 9, 2022, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on Oversight and Reform.

EC-3657. A letter from the Chief, Regulatory Management Division, Office of Policy and Strategy, U.S. Citizenship and Immigration Services, Department of Homeland Security, transmitting the Department's final rule — Special Immigrant Juvenile Petitions [CIS No.: 2474-09; DHS Docket No.: USCIS-2009-0004] (RIN: 1615-AB81) received March 11, 2022, pursuant to 5 U.S.C. 801(a)(1)(A); Public Law 104-121, Sec. 251; (110 Stat. 868); to the Committee on the Judiciary.

EC-3658. A letter from the Assistant Secretary for Legislation, Department of Health

and Human Services, transmitting the Department's Child Welfare Outcomes 2019: Report to Congress, pursuant to 42 U.S.C. 679b(a)(5); Public Law 105-89, Sec. 203(a); (111 Stat. 2127); to the Committee on Ways and Means.

EC-3659. A letter from the Chair, Medicare Payment Advisory Commission, transmitting the Commission's March 2022 Report to Congress: Medicare Payment Policy, pursuant to 42 U.S.C. 280g-15; Public Law 111-148, Sec. 399V-4(h)(3); (124 Stat. 1013); jointly to the Committees on Energy and Commerce and Ways and Means.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. NEAL (for himself, Mr. BRADY, Mr. BLUMENAUER, Mr. SMITH of Nebraska, Mr. DOGGETT, Mr. PASCRELL, Mr. SUOZZI, Mr. KIND, Mr. KELLY of Pennsylvania, Mr. DANNY K. DAVIS of Illinois, Mr. REED, Mr. MURPHY of North Carolina, Mr. LARSON of Connecticut, Mr. RICE of South Carolina, Mr. NEWHOUSE, Ms. SANCHEZ, Mr. THOMPSON of California, Ms. DELAURO, Mr. MOOLENAAR, Mrs. MILLER of West Virginia, Mr. MEIJER, Miss GONZÁLEZ-COLÓN, Ms. VAN DUYN, Mr. BUCHANAN, Mr. SCHNEIDER, Mr. KEATING, and Mrs. SPARTZ):

H.R. 7108. A bill to suspend normal trade relations treatment for the Russian Federation and the Republic of Belarus, and for other purposes; to the Committees on Ways and Means, Rules, Foreign Affairs, and the Judiciary; considered and passed.

By Mrs. HARTZLER (for herself and Mr. NORCROSS):

H.R. 7109. A bill to amend the Servicemembers Civil Relief Act to require public lodging establishments to waive minimum age requirements for members of the Armed Forces; to the Committee on Veterans' Affairs, and in addition to the Committee on the Judiciary, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mrs. HARTZLER:

H.R. 7110. A bill to amend title 10, United States Code, to clarify and expand authorization of support for chaplain-led programs for members of the Armed Forces; to the Committee on Armed Services.

By Mr. WILSON of South Carolina (for himself, Mr. ALLEN, and Mr. WALBERG):

H.R. 7111. A bill to amend the National Labor Relations Act to require that lists of employees eligible to vote in organizing elections be provided to the National Labor Relations Board; to the Committee on Education and Labor.

By Mr. LONG (for himself and Mr. KUSTOFF):

H.R. 7112. A bill to direct the Assistant Secretary of Commerce for Communications and Information to make grants for the establishment or expansion of internet exchange facilities, and for other purposes; to the Committee on Energy and Commerce.

By Mr. BUDD:

H.R. 7113. A bill to amend title 5, United States Code, to prohibit sums in the Thrift Savings Fund from being invested in any security of an entity based in the Russian Federation, and for other purposes; to the Committee on Oversight and Reform.
